4-6 **Stories of Culture and Revelation**

Hebraic Roots: The Hidden Star  
The glory of God hides something.  
The glory of kings searches it out. (Pr 25:2)  
The name, Esther, means "I will hide" in Hebrew.  
So much is hidden in her story, in God's story.

Its mysteries yearn to be uncovered.

Its hidden dates and names cry to be revealed.

When Esther laid down her life for her people she fulfilled an ancient promise hidden in secret Biblical understanding.

Her fulfilled romance with the king brought life to herself and her people. But if it had been rejected, it would have brought death to all. Unbeknownst to the common reader, God had hidden His promise in the dates. The outcome was delineated hundreds of years before the event occurred. Come and be surprised.
